PROFILE SUMMARY

Computer Science graduate and Networking Instructor specializing in **Red Hat Enterprise Linux, Linux System Administration, Containers, and OpenShift**. Hands-on experience with RHEL administration, Podman containerization, OpenShift application deployment, networking, storage, security, and troubleshooting. Experienced in delivering technical training and conducting hands-on Red Hat laboratory sessions.

EDUCATION

Dr. M.G.R. Educational and Research Institute	Chennai, India
B.Tech in Computer Science and Engineering	2022 – 2026
CGPA: 7.50	
Anna Adarsh Matriculation Higher Secondary School	Chennai, India
Class 12th – 72%	2021 – 2022
Class 10th – 62%	2019 – 2020

EXPERIENCE

Vectra Technosoft Private Limited	Chennai, India
Networking Instructor	June 2026 – Present

- Deliver technical training on enterprise networking, Linux administration, Red Hat technologies, and infrastructure concepts.
- Conduct hands-on laboratories covering RHEL administration, containers, OpenShift, networking, storage, security, and troubleshooting.
- Guide learners through Red Hat certification-oriented practical exercises and troubleshoot configuration and deployment issues.
- Prepare technical presentations, demonstrations, quizzes, and hands-on laboratory exercises for enterprise technology courses.

Vectra Technosoft Private Limited	Chennai, India
Technical Support Engineer Intern – Red Hat Linux	June 2025 – July 2025

- Gained practical exposure to Red Hat Enterprise Linux system administration and technical support workflows.
- Worked with Linux system configuration, troubleshooting, user management, permissions, networking, and infrastructure maintenance.

TECHNICAL SKILLS

Linux / RHCSA	RHEL, User and Group Management, File Permissions, SELinux, LVM, Systemd, SSH, RPM/DNF
Containers / DO188	Podman, Containerfiles, Container Images, Registries, Container Volumes, Container Networks
OpenShift / DO180	OpenShift, Pods, Deployments, Services, Routes, ConfigMaps, Secrets, Persistent Volumes and PVCs
Networking	TCP/IP, DNS, DHCP, SSH, NetworkManager

PROJECTS

HemaPulse AI Anemia Diagnostic Suite

- Developed an IoT-based health monitoring platform integrating wearable sensor data with an application dashboard.
- Implemented real-time data visualization and device communication for monitoring collected sensor parameters.

Automated Multi-Node Infrastructure & Monitoring Lab

- Built a multi-node Linux environment for infrastructure provisioning and system administration practice.
- Automated system configuration and user access management for Linux infrastructure.
- Deployed a containerized monitoring environment for infrastructure visibility and troubleshooting.

SpringStay Hotel Management System

- Developed a web-based hotel management application with database persistence and server-side application components.

CERTIFICATIONS

- **Red Hat Certified System Administrator (RHCSA)** – Certification ID: 250-063-641
- **Cisco JavaScript Essentials**
- **Cisco Network Vulnerabilities**
- **Microsoft: Privacy & Data Confidentiality**
- **Microsoft: Network Security**
- **NPTEL: Python for Data Science Certificate**
- **Red Hat Certified Technologist in OpenShift**
